Attached is the OSC report. There are a couple of things that need updates.

I do not have access to determine the number of NRC reports (first slide) so that information is currently "XXX"

There was no POLREP available (even if I logged in) on the Lochsa Tanker (slide 7) information needs to be added on Key Operations and Major lessons learned.

The other slides, I got information either from the OSC web pages, spoke with the OSC, and/or spoke with the START responder involved.

Please let me know if you have any questions.

Respectfully,

Renee
